

Launch Cloudant DB

The screenshot shows the Cloudant Databases dashboard in a web browser. The browser's address bar displays the URL: `49334a7d-4f38-4f33-9356-b80003ed681d-bluemix.cloudant.com/dashboard.html`. The page title is "Databases". On the right side of the header, there is a "Database name" dropdown menu, a "Create Database" button, a "{ } JSON" button, and a notification bell icon. Below the header, the main content area is titled "Your Databases". It contains a table with the following columns: "Name", "Size", "# of Docs", "Partitioned", and "Actions". The table lists one database named "my-data" with a size of "10 bytes", 4 documents, and is not partitioned. The "Actions" column for "my-data" includes icons for adding, deleting, and refreshing. At the bottom of the page, there is a "Log Out" link on the left and a pagination bar on the right that says "Showing 1-1 of 1 databases. Databases per page 20". The Windows taskbar is visible at the bottom of the screen.

Name	Size	# of Docs	Partitioned	Actions
my-data	10 bytes	4	No	  

Showing 1-1 of 1 databases. Databases per page 20
